City Like a Bride.

1 There's a city like a bride, far beyond the swelling tide,
And mine eyes are ever turning t'ward its gates;
For there's rest and peace within for the soul that's free from sin
And beyond the shining portal Jesus waits.

CHORUS.

Blessed home, thou city like a bride,
Heavenly home beyond the swelling tide,
Oh, there's rest and peace within for the soul that's free from sin.
In the city just beyond the swelling tide.

2 In that city clear as light there's a mansion fair and bright,
He prepared for me inside the pearly gates;
So my longing eyes I turn, while my soul with transport burns,
For I know upon its threshold Jesus waits.

3 Here are hearts grown old with fears; here are eyes grown dim with tears,
But no cares perplex beyond the blessed gates;
There alike the rich and poor find a haven safe and sure;
And for every homeless wand'rer Jesus waits.

4. Oh, how cheering is the thought, to my soul with blessing fraught,
While mine eyes are turning t'ward its gates;
That for me and all beside, all for whom the Saviour died,
Just within the shining portal Jesus waits.

Ask for the Old Path.

1 Ask for the old path; God will make it plain;
Jesus will lead us there;
They who would find it never seek in vain;
He will lead us there.

CHORUS.

When the valley safely we have pass'd,
God will gather us home at last;
Home in the old path gladly we will go;
He will lead us there.

2 Knock at the portal, narrow though it be;
Pray that we enter in;
Faith is the password, prayer the blessed key;
Strive to enter in.

3 Walk in the old path; never turn aside;
Climb we the rugged hill;
Why should we falter? see our faithful Guide
Leading onward still.

4 Keep in the old path; ever to the right;
Lo! 'tis the King's highway;
Soon will the shadows vanish from our sight,
Lost in perfect day.

C. P. R. CROP REPORTS.

Notes From all Points of the Province.

Below is the annual official report of the crops in Manitoba, collated and compiled by Mr. Harder, assistant traffic manager of the C. P. R. Information has been received from eighty-four points of the North West, and is sufficiently comprehensive to demonstrate that the present has been a very prosperous season for the tillers of the soil, and, as a consequence, for the country generally.

CARBERRY.

There are 10,000 acres of land under cultivation in this district, viz: 5,000 acres of wheat, 2,500 in oats, 500 in barley, and 2,000 in root crops.

Stock raising is not carried on to any great extent at present. There are 200 families in this neighborhood, all of whom are well pleased with how things have gone with them. There were 2,500 acres of new land broken for seeding next spring. Carberry is the nearest market for produce.

ALEXANDER.

There are 1,200 acres of land under cultivation, 600 acres in wheat, 300 in oats, 200 in peas, 25 in flaxseed, and 75 in root crops. There has also been 500 tons of good hay saved. Stock raising is carried on to a wonderful extent, having regard to the short time the place has been taken up. There are 2,000 acres of new land broken for seeding next spring.

The settlers, who number fifty, are well satisfied with their land. Alexander is expected to be the market town for the produce of this place.

OAK LAKE.

There are 200 acres under cultivation here, and the yield is 50 bushels per acre. About 2,000 tons of hay have been saved in fine condition. Stock raising is carried on to a limited extent. There are 1,500 acres of new land broken and ready for seeding next spring.

We have twenty settlers in this district, nearly all of whom came in this season. From what I have seen personally, the land is capable of carrying heavy crops for at least six years without manuring; and although it is of a lighter nature than some parts south, it can be more easily cultivated and cropped earlier than heavy clay loam. A large area of land to the north of this station could be got under cultivation with little expense by running a large drain to the river, which is about a mile distant. Should this be done the locality would be greatly improved, it being at present covered with water in wet seasons.

VIRDEN.

There are 500 acres under cultivation and the average yield per acre is fifty bushels. Five hundred tons of hay have been saved in capital condition. One thousand acres of new land have been broken. There are 100 settlers in this district and the land is all taken up. All new-comers are well satisfied. This information I have gathered within a radius of three miles, and I have given it as nearly as I could ascertain it from farmers and from what I have personally seen.

BIRTLE.

J. H. Wood, postmaster, reports:—Ten thousand acres of land in this vicinity are under cultivation, viz: 3,200 acres in wheat, 4,700 in oats, 1,100 in barley, 1,000 in roots. The yield per acre is as follows:—Wheat 35 bushels, oats 40 to 50, barley 35, potatoes 350. Fifteen thousand tons of hay have been saved in good condition. Stock raising is carried on only to a limited extent. Between 6,000 and 7,000 acres of new land have been broken this season for next spring's seeding

There are 350 settlers in this neighborhood, 150 of whom came in this season and are well satisfied. The village of Birtle is a good local market. Moosomin and Elkhorn, about thirty miles distant, are our nearest railway stations at present. Owing to the very dry season, the root crop has not been a very large one.

BRANDON.

The postmaster says:—30,000 acres of land in this district are under cultivation, and the yield per acre is as follows: Wheat 25 bushels, oats 50 to 60, barley 30. The root crop is large and very fine. About 2,500 tons of hay have been saved in fine condition. Stock raising is not extensively carried on just now, but is increasing rapidly. A large quantity of new land has been broken this season, but it is difficult to estimate the exact quantity. This district is thickly settled. A large number of settlers have come this season and are well satisfied with the change they have made. This city is the market for a large section of country, in some cases 60 miles distant. Hence it is not easy to obtain accurate information.

BRANDON HILLS.

Geo. Roddick, postmaster, reports:—5,000 acres in this vicinity are under cultivation, viz: 2,000 acres in wheat, and 3,000 in oats. The yield per acre, wheat 30 bushels, oats 60. Roots will yield about 200 bushels per acre. Four thousand tons of hay have been saved in good condition. Stock raising is carried on to a limited extent. Four thousand acres of new land have been broken ready for next spring's seeding. We have 200 settlers in this district and all are well satisfied.

Brandon Hills' settlement is one of the oldest in the county of Brandon. Rev. Geo. Roddick is the pioneer settler having discovered this fertile and beautiful district in the spring of 1879. After the location of the C. P. R. at the Assiniboine in the spring of 1881, the whole district filled up with great rapidity. The progress of the last year is something remarkable, and the settlers are delighted with their proximity to the railroad and to the flourishing city of Brandon.

ELTON.

O. Nichol, postmaster, reports:—600 acres of land are under cultivation in this vicinity, viz: 200 acres in wheat, 380 in oats, etc. The yield per acre is, wheat 30 bushels, oats 50. Potatoes will average at least 350 bushels. 700 tons of hay have been saved in good condition. About 300 head of cattle are owned by ten settlers, who have broken about 300 acres of new land for next year's seeding.

We have had ten new arrivals this year and all seem to be well satisfied. There has been very little threshing thus far, but the estimates given are made from a careful observation of the growing crops, and I believe are under rather than above the average yield.

GOPHER CREEK.

F. A. Cooke, postmaster, reports:—This settlement is a new one. The first settler settled here about June, too late to do much this season. 1,500 tons of hay have been well saved. Nearly 2,000 acres of new land have been broken for next years cropping. All the land in this locality has been taken up. Virden is our nearest market. This information covers the district within a radius of six miles of this postoffice.

GRISWOLD.

John Parke, postmaster, reports:—Seven hundred acres of land in this neighborhood are under cultivation, and the yield per acre is—wheat 35 bushels, oats 60, barley 40, potatoes 300. 3,000 tons of hay have been saved in excellent condition. 1,600 acres of new land have been broken this season, ready for next spring's seeding.

There are 100 settlers in this district, forty of whom came in this season, and all are well satisfied. Brandon is our nearest market, 22 miles distant. This report only covers township 10, range 22.

LANGVALE.

Geo. M. D. Lang, postmaster, reports:—About 1,000 acres are under cultivation in this district, viz: 400 acres in wheat, 500 in oats, and the remainder in root crops. The yield per acre is, wheat 26 bushels, oats 60 bushels, potatoes 200. From 500 to 600 tons of hay have been saved in good order. About 1,000 acres of new land have been broken ready for seeding next spring. We have 200 new settlers all apparently well satisfied. Our nearest market is Brandon. The settlement in the immediate vicinity of Langvale has filled up rapidly, and, for its age, is getting on very well. The land has all been taken up, and the settlers are coming in very rapidly so that the land will soon be all occupied.

MILLFORD.

R. Z. Rogers, postmaster, reports:—21,500 acres are under cultivation, viz: 14,000 acres in wheat, 6,000 in oats, 1,000 in barley, and 500 in root crops. The yield per acre is: wheat 28 bushels, oats 45, barley 40. Three thousand tons of hay have been saved in very good condition. Not very much stock is raised here. Twenty thousand acres of new land have been broken this season and is ready for seeding next spring. We have about 600 settlers in this district, which has only been opened up two years, and all are very prosperous and contented. Our nearest market is Brandon, 27 miles distant.

I have made as careful an estimate as possible of the produce of the farms within a radius of 15 miles of Millford on the south side of the Assiniboine river, though a much greater extent of territory is naturally tributary to this point as an outlet for its grain. The harvest here this year has been all that could be wished for, and the sample of wheat in this locality is, I am confident, not to be excelled in the world. The self-binder is becoming universal. One agent alone started 45 in this neighborhood this season. When one sees the extensive proportions agriculture has already attained, it seems almost incredible that two years ago the first furrow was turned in this district. On account of the short season of navigation, railroad communication with the east, through the fine country south of the Assiniboine river, is urgently needed, and would be a financial success from the outset.

Four steam threshers and three horse-power machines are now at work near here, and the yield of grain is better than was expected. One hundred and four bushels of wheat from two acres is the best I have heard of as yet. We are to-day having a nice shower of rain, the first which has fallen for six weeks.

PULTNEY.

James Fortier, postmaster, reports 115 acres of land under cultivation, viz: 55 acres of wheat, 20 in oats and 20 in root crops. Good hay to the amount of 800 tons has been saved. The settlers, numbering 36, came in this season and are well satisfied. There are 875 acres of new land broken for seeding next spring. Brandon is the principal market for the produce of this place, but a hope is held out that Alexander will soon become the market for local trade. The distance from Pultney to Brandon is fifteen miles and to Alexander about four miles.

RAPID CITY,

in the county of Minnedosa, reports 38,000 acres under crop; in wheat 14,000, in oats 22,000, in barley 2,000; the yield for wheat is 25 bushels per acre, oats 50, barley 50, and root crops average yield is 300 bushels per acre.

There has been 50,000 tons of hay saved in fine condition. Stock raising is carried on to a considerable extent. About 13,000 acres of new land have been broken for next years crop. Not many new settlers have come in as the lands were all taken up previously. Those who did come are well satisfied with the change they have made. We have about 1,300 bona fide farmers in this county. Our nearest market is Brandon for export, and Rapid City for home market.

REMARKS.

From the foregoing reports by our agents along the line of the Canadian Pacific Railway, and postmasters and others throughout the country, it will be seen that the harvest of 1882 has been a splendid one, and satisfactory in every respect, and that contentment and happiness are expressed from every quarter. There is not a single report discouraging, considering the large number of new settlers that came into the country between January and June, this is most gratifying, especially from the fact that the majority of them arrived in the country during the months of March and April when severe weather prevailed, almost the worst in the year

Tolerably accurate figures as to the influx of new comers per month, show that the arrivals were as follows:—

January	2,000
February	25,000
March	2,000
April	11,306
May	7,149
June	4,527
Total	29,998

From these figures it will be seen that the largest number of people arrived during the most disagreeable time of the year, and no doubt many hardships were encountered in locating on the new lands. The reports now received are therefore the most cheering when it is found that all traces of any inconvenience experienced on arrival have been forgotten and overcome.

It is to be hoped that railway companies and others will not again urge emigration so early in the season. It is by far the better plan to come to Manitoba in May and June, when travel on the prairie is easy and comfortable as compared with what it is two months earlier.

From a perusal of the reports, it must be evident that the land is capable of producing immense crops. The reports also go to show that a very large area of new land has been broken, ready for next springs operations, and which will, without doubt, give a large yield with anything like a fair season, while thousands of acres of the same fertile lands are waiting the advent of settlers to cultivate them. This is, without doubt, the country for those who are willing to work, to make themselves independent in a short period.

Farmers and others in the overcrowded towns and counties of the mother country, reading these reports, must surely realize the fact that they are wasting their time and energies, in many cases for simply a bare living, while here in a short time they could become independent.

The reports submitted are not made up from imagination or from hearsay, but from trustworthy information gathered from practical farmers and others living on the lands, and being full of information are well worthy of perusal.

The Beauty's Grievance.

HER DECLARATION IN THE SUIT TO RECOVER $10,000 FROM ADAM FOREPAUGH.

Miss Laura S. Keyser, better known to the world as Louisa Montague, "the $10,000 beauty," on Saturday filed in Philadelphia a declaration stating the counts of the suit which she has recently instituted against Adam Forepaugh to recover $10,000 damages. Miss Keyser's declaration, after stating for the benefit of the court the fact that Mr. Forepaugh is in the circus business, continues: "And whereas the said defendant had in connection with the said circus and menagerie a street procession and great pageant, by means of which he attracted and drew large crowds of people to witness the performance and exhibition which he gave and exhibited to the public; and whereas he was desirous of securing a handsome woman to appear for a period of thirty weeks in his said street procession and street pageant as an additional means of attracting the public and interesting the people, he caused to be printed and published a certain advertisement in the following words, to wit." And then follows the circular promulgated by Mr. Forepaugh in the spring of 1881, headed "A Fortune for a Face," and offering a reward of $10,000 for the "loveliest lady in the land." Confiding, she alleges, in this promise, on the 31st of March, 1881, she made application to Mr. Day, Mr. Forepaugh's agent, in the manner prescribed by the circular, and was accepted. Although she appeared in the "street procession, or grand pageant, of the defendant" for thirty weeks during the spring and summer of 1881, she avers that Mr. Forepaugh has entirely failed to pay her the promised $10,000.

Cornering a Witness.

At the Clare Assizes in Ennis two brothers named Hourigan were arrested for setting fire to a police barrack, the property of Darby O'Grady, and it was stated that the barrack had been ignited by means of a jar of pitch found half consumed near the burned barrack. Daniel O'Connell was employed for the defence, and by his desire a skillet containing pitch was secretly placed near the witness chair, and over this O'Connell placed his broad-brimmed hat so as effectually to conceal it. The principal witness for the prosecution swore "that he discovered the barrack on fire, and knew it was set on fire by pitch, for he got the smell of it."

"You know the smell of pitch then," said O'Connell.

"I do well," replied the witness.

"You seem a man able to smell pitch anywhere," said O'Connell.

"Anywhere I found it."

"Even here in this court house, if it were here?"

"No doubt I would."

"And do you swear you don't get the smell of pitch here?" asked O'Connell.

"I do solemnly," replied the witness. "If it were here I'd smell it."

Then O'Connel, taking his hat off the skillet of pitch, which was placed beside the witness chair, cried:

"Now you may go down, you perjured rascal; go down!"

This saved his clients. The jury discredited the witness.

Winter Wheat.

At a recent meeting of the Central New York Farmers' Club, a member said:

"I believe that wheat can be raised on any fair ground, and with proper cultivation, so as to be a paying crop. Several years ago I met a man from Canada who was a professional wheat-grower. I asked him how much he raised to the acre? He replied that he had ten acres, and that his crop that year was 546 bushels from the ten acres. I then cross-questioned him. I said, "but you can't control the elements." "Oh, yes," he replied, "we do that every day. Suppose you turn your horses out into she field and keep them there for a year without shelter, what would they be good for? Now I raise a crop which may get winter killed and die from exposure. What must I do? Why, simply protect it from exposure as you would your horse. I blanket my wheat." Mr. Jenks continued: I begin by plowing in clover for a fertilizing material, and alternate each succeeding year with wheat and clover. I plow the clover six inches under, and harrow the ground six or seven times. In planting, I drill in 1½ bushels of seed to the acre. Am very careful about my seed, and run a hundred bushels through the mill to get seed enough to plant 12 acres. Always use the very largest kernels, as they have more material in them to fertilize the germ. After the grain is in leave it till the last moment. If there is any part exposed where it is likely to get winter killed, I mulch it with straw, and thus blanket and protect it. When spring comes I sow my clover seed, and go over the ground lengthways with the harrow, which makes me sure of a good crop of clover. Then again I bury the clover six inches under ground. Probably I don't get many more heads of wheat than other people, but my object is to get long heads, and this I do by fertilizing the soil with the clover. There is one advantage in raising wheat; after the seed is in, it almost takes care of itself until harvest time. Now if 15 bushels to the acre will pay expenses, the man who gets 25 bushels will make some money, and he who gets 35 bushels will make still more. My wheat yields 50 bushels to the acre, and that is a possible yield for almost any farmer who will work for it. We formers deal with the most subtle elements in the world. As farmers let us be thinking men, noble men, and if by any method we can increase the product of our farms let us spare no labor to accomplish it.—*Farmer's Advocate.*

Civil Marriages Condemned.

The Roman Catholic Clergy appear to be anxious to transplant the "Kultar-Kampf" to American soil. Bishop Borgess, of the Roman Catholic Church of the diocese of Detroit, says he believes it is his duty to call attention anew to the ever-increasing frequency of mixed marriages, and to conjure the clergy to warn the faithful against the inevitable dangers connected with and entailed by them. The circular says: "We hereby make known and publish, and enjoin you to publish to the faithful committed to your pastoral charge, that after the date of this publication, a Catholic shall presume to have recourse to a justice of the peace or to a Protestant minister for the solemnization of marriage, and does contract civil marriage, the Catholic thus offending against the law of God is by that fact excommunicated from the pale of the Church of God. We further make known and publish that if a Catholic has contracted matrimony before a justice of the peace or a Protestant minister he shall also make a public reparation in the presence of the congregation or mission to which he belongs, for the public scandal given, and that only after such public reparation has been made the reverend pastor may make application for his reconciliation with the church.

To the Editor of THE BRANDON SUN:

Permit me through your columns to present to your many readers with some faint outlines of the site and surroundings of the prospective city of Moose Jaw.

After passing west of Brandon—that proud city coquettishly reclining in the folds of a thousand charms—eliciting the most enthusiastic admiration, evoking fancy's most exquisite touches to delineate; the next and only place east of the South Saskatchewan remarkable for beauty of situation along the Canadian Pacific Railroad line is the Moose Jaw and its surroundings.

The view, whether from the north, south, east, or west, is equally absorbing. Approaching from the east along the gentle slope from the more elevated prairie to the railway crossing, in the pretty valley at the junction of the Moose Jaw and Thunder Creek, an extensive and beautifully undulating prairie stretches far away south, and deep distance closes the scene.

On the right the glassy swellings of the dancing stream winding its way among the golden willows that marks its course down the deepening valley, backed by the grandly rounded heights, as roll after roll swells and sinks in ever varying succession,

THE BRANDON SUN.

BRANDON, MANITOBA, OCT. 19, 1882.

WE have received from Mr. T. W. Teasdale an illumined poster setting forth the advantages of travel over the "Royal Route," otherwise the Chicago, St. Paul, Minneapolis & Omaha, the only route running Palace Dining cars and Pullman Smoking-room Sleepers between Minneapolis, St. Paul and Chicago. This is one of the roads pointing to the International boundary, and of which Mr. Van Horne, as will be seen by the report of the interview published on our first page, was afraid if the question of disallowance were established would point towards this city. Although the C., St. P., Minn. and Omaha was omitted in the list of roads suggested for the secretary of the committee to correspond with, we are of the opinion that communication should be opened with its managers at once, and assure them of the co-operation of this city in any steps they may think fitting to carry out their present project to a successful issue.

THE CITY COUNCIL.

Council met on Monday evening last. Present—Mayor Daly, in the chair, Ald Sifton, Winter, Brock, Winters, Smart, and Fortier.

Petition from Alexander Kelly, D. Sutherland several others, asking for drainage of Assiniboine Avenue, was referred to the Board of Works.

From the livery stable keepers, asking for protection and a regulative tariff. Referred to the Finance Committee.

From Mr. Soules, asking for reply to his communication concerning weigh scales. Referred to Board of Works.

From Ripple & Co. and several others enclosing marked cheque and asking for an eight-foot walk on 8th street. Referred to Board of Works.

From Mr. Murdoch, asking for extension of eight-foot sidewalk to 4th street. Referred to Board of Works.

COMMUNICATIONS.

From the city solicitor, who gave it as his opinion that the city could not be made purchase the bridges crossing the river.

Moved by Ald. Sifton, seconded by Ald. Winter, That the clerk be instructed to acknowledge receipt of Ross, Killam & Haggart's letter, enclosing a copy of the solicitor's letter, at the same time informing him that the city is not at present in a position to entertain their proposition.

From Chief of Police, asking for leave of absence for a week. Granted.

A number of receipts from the City Chamberlain, acknowledging payments for dray, truck and livery licenses, was read and the licenses granted.

Ald. Winter, would it not be well, your worship, to have some one appointed to look after the matter of licenses. I understand that there are a number who have not yet applied for license, and are working on in the face of the by-law.

The mayor, for your information, Ald. Winter, I would say that the Chief has been appointed an inspector, and most of the draughtmen have applied, and the numbers are now ready for them.

An account from the caretaker was read, the rule suspended and the account ordered to be paid.

Also accounts from A. Kelly, for meals supplied prisoners; and from the city Solicitor for quarters salary. Both referred to the Finance committee.

A number of accounts were read, but not having been certified to by the Board of Works were referred to that body.

Ald. Horne, having been absent for some time, and being chairman of the Board, no meeting has been held for some days, it was suggested that, owing to the urgency of business at the present time the Board be re-organized. It was, however, understood, that the action was no reflection on Ald. Horne.

Ald. Winters was appointed chairman of the Board of Works, and Ald. Winter and Fortier added as members thereof.

The newly-formed Board then met and transacted the business that had congregated during the past two weeks.

The accounts being returned the council went into committee of the whole, Ald. Smart in the chair.

Several accounts were passed by the committee and there was a prospect of the work being completed speedily until the contractor's fortnightly estimate was read, when the mayor said that he did not think it should pass the committee as the streets were in a most deplorable state, and the contractor through his inability had forfeited his contract. If he went into the matter blindfold the city should not be responsible. The streets were now in a worse state than they were a year ago, and as far as Rosser Avenue was concerned it was in a deplorable condition. He was opposed to the granting of any more money until the three Avenues, Rosser, Pacific and Princess, were completed according to agreement. The council, not the contractor, is responsible to the people, and it was not justified in paying him any more until he showed some signs of carrying out the contract.

Ald. Smart, will not the twenty per cent. drawback be a sufficient security.

The mayor did not think it was. He wanted to see all the teams taken off the outlying streets and put on the avenues. He would move that the account be left over for one week.

Ald. Winter, in seconding the motion, spoke of Pacific Avenue as a huge mud-hole.

Ald. Smart, if we put on the screws now it will have the effect of stopping the work entirely.

Ald. Winters was of the opinion that it was foolish to act in this manner as the men on the work had to be paid.

The mayor did not believe in this puddling, fiddling and muddling style of doing work. If the contractor could not pay his men without getting the money it would bring him before the council to explain his position. He would therefore press his motion.

The motion was then put and carried.

Ald. Winter asked who had charge of the tanks, and if there was an overseer. If so, the city was unfortunate in having him, and it would be better were another appointed. He had that day paid a visit to the work and found men trying to work with their overcoats on.

The City Engineer explained the difficulty in getting men, and the matter which Ald. Winter had referred to would be looked into.

Ald. Winter, It would be more comfortable for these men if we would purchase a stove and put it in the hole with them.

The report of the committee, which contained the passing of several accounts, was then adopted.

The mayor, on resuming his seat, said that to the non-payment of the contractor it was a duty owed the citizens that the work now entered upon should be fully carried out, especially the stone gutters on each side of the streets.

The Court of Revision was appointed to meet on the 3rd of November.

The case of Mrs. Palmer, stopping at the Brandon House, supposed to be crazy, was enquired into, and ordered to be brought before the mayor. Also that of Mrs. Williams with six children, whose husband was killed a short time since on the C. P. R. Instructions were given to have her sent to New York where she has a brother.

Ald. Sifton wished to know what had been done towards the appointment of a license Inspector, and was of the opinion that if the Chief would accept the position he would be able to fill it, and at the same time it would be an increase to his salary.

The mayor said that he fully concurred with Ald. Sifton, that a license inspector should be appointed, and he would state that in his position as chief magistrate of the city, it was his intention to carry out the law to its fullest extent. The council had taken upon itself a great responsibility in recommending the granting of licenses, and the Government had taken upon itself equally as great in granting them. Now that it was done it behooved the Board to use every effort to stamp out the low groggeries, and he was quite of the opinion that the chief should be appointed to the position.

Ald. Sifton moved, seconded by Ald. Winter, That the Chief be allowed to apply to the Government for the position of license inspector, and that the clerk be authorized to write recommending the appointment. Carried.

Ald. Sifton asked if it was not time some steps were taken about building the gaol and court house.

The mayor replied that when in Winnipeg he had consulted authorities, and although nothing would be done until spring, we would then have the advantage of these, even if the dist ict were divided, as is now spoken of.

The matter of the cemetery was then discussed, when it was resolved that Mr. Fortier obtain a definite offer from Mr. Woodworth and report at the next meeting of council.

Before the adjournment of the council it was moved by Ald. Sifton, seconded by Ald. Fortier, that the services of Mr. D. M. McMillan be retained as clerk until the recovery of Mr. Martindale.

On the strong protestations of J. J. C. Abbott, of the Pacific Railway, it is said the Government will disallow the general railroad act passed by the Manitoba Legislature at its last session. The Pacific will hold the Government to the charter, and no infringement of their rights will be permitted. This disallowance will prevent the Grand Trunk from connecting with the Manitoba via the Northern Pacific at Duluth The Grand Trunk has obtained running powers over the Canada Atlantic to Ottawa.—*Pioneer Press.*

DIED.

ROBINSON.—At Brandon, on Sunday 15th inst., James Hilliard Robinson, infant son of J. C. and A. K. Robinson, aged 13 months and 9 days.

HOUSE TO LET.—Small frame house on 7th St., one door South of Albion Hotel. Apply at New Cheap Store. J. R. MILLER.

GEO. RIPPLE & CO.,

Sign of the Golden nvil,

8th St., near Beaubier House,

THE BRANDON SUN.

BRANDON, MANITOBA, OCT. 19, 1882.

SEVEN mile siding will hereafter be known as Meadows Station.

A NEW yard engine of the latest American design has been placed in the Brandon yard.

THE frame of the new engine house is about completed and the brick work will be commenced in a few days.

THE man White, who broke his leg at the depot last spring by his team runing away, is able to be around again.

Mr. Saml. Beamish's faiends are going to give him a bumper welcome, on his return to Port Hope, in a weeks.

THEY say that the Portage ale is of the finest flavor, and of the best quality. Commodore Johnson gives our typos credit for being excellent judges.

WORK has recommenced on the new passenger station, and if the weather is favorable it is expected that it will be ready for use by the middle of November.

CHIEF MURRAY called upon us the other day, but not in an official capacity. He had George P. Munroe, of Sixth street in charge. George set 'em up, though, and, we understand, was at once liberated.

OWING to the strike of the carpenters in Winnipeg a number of the knights of the hammer and saw have paid a visit to our city, and, of course, succeeded in getting work at once.

HUGH MacMahon, Esq., Q. C., and Thos. Greenway, Esq., addressed the large audience in the Opera House, Emerson, on Monday evening last, on Provincial Rights.

THE Rev. Mr. Bell, of Portage la Prairie performed the dedicatory services in the Presbyterian Church last Sunday, preaching very able sermons both morning and evening. Notwithstanding the disagreeable weather, good audiences were present at both services.

WE had pleasant calls the past week from Mr. Spedding, of the Pilot Mound *Signal*, from Mr. Douglas, of the *International* and from Mr. D. W. Buchanan, a noted journalist from western Ontario now in the real estate business in this province.

PASSING the Grand View Hotel the other day [it is not yet opened, therefore the "pass"] our attention was directed to the fine appearance of the brick. It was manufactured by Mr. Laing, two miles south of the city, and is greatly superior to the Portage brick. Mr. Laing will have from his third kiln enough to supply the city for its first work in the spring.

O. S. FOWLER, the veteran phrenologist of New York, will pay this city a visit on Friday and Saturday evenings next, and will lecture in the Methodist church, not in the school house as appears on some of the bills. To say that a treat is in store for the people here would not be "telling the half." A full house is expected, and if any man deserves it it is the Professor.

ON Tuesday last fourteen servants arrived from the old country to take positions in the Club House. Owing to its incomplete state, whatever pleasure may be in a state of two weeks idleness they will enjoy it. We have been requested by Mr. Granville to state that the Criterion no longer exists as a public house, but until the Club House on 12th street is ready for occupation the Criterion will take its place.

A description of what may be considered the inaugural banquet of the new capital of Assiniboia, Regina, is given by a correspondent at that city. The speakers naturally applauded the site, one of them being so carried away as to apostrophize the barren waste as a "great town." Deservedly flattering tributes, however, were paid to the fertility of the soil of the North-west, not only by the Canadians and Englishmen present, but by a representative American.

AT the fall show held here on Wednesday of last week, there were some of the largest potatoes we have ever seen. The largest were exhibited by Mr. John Doran, and for the past week a heaping bushel of them have been on exhibition at this office. Some of them are now on their way to the old country for exhibition, and, as suggested by a cotemporary, we expect to hear every day from the party having them in charge that he will require a stack of affidavits to certify that they are not Swede turnips.

KELTIE-BARR CONCERT.—The concert given in the Presbyterian Church on Tuesday evening by Mrs. Keltie and Miss Barr, assisted by Chief Murray and Messrs. Mitchell and Ptolemy, of Winnipeg, was a most enjoyable affair, as well as a musical treat of the richest character, Mrs. Keltie sang several pieces in the most finished and taking manner, "Comin' thro' the Rye" and "I Wouldn't, Would You?" being especially admired; and Miss Barr in "Robin Grey," and "Two is Company," fairly captured the audience. The gentlemen sang extremely well, particularly Chief Murray, in "the March of the Cameron Men," which quite electrified the audience, especially the chairman, G. B. Angus, Esq.

Brandon, although only about sixteen months' old, has more buildings and more population than Emerson and West Lynne put together. There is probably not another town on the American continent, excepting one or two mining towns, that can show such a record. Located on a gentle declivity overlooking the winding Assiniboine and the Grand Valley, with graded and gravelled streets, good sidewalks and fine churches, business blocks and residences, Brandon can lay claim to being the handsomest city in the Province.—*Emerson International.*

DURING the past week there has been considerable feeling and no small anxiety, owing to the presence of wood inspector McLellan, who has forbidden the removal of any wood from the Hills unless by permit, which can only be had by a homesteader, and then only on his declaring that the wood is for his own use and benefit. The Brandon people are, therefore, to a certain extent "Boycotted," as it is impossible to get wood unless brought from the east. That there is considerable justice in the injunction will readily be granted by giving it a moment's consideration. That there is not a great quantity of wood on the hills is well-known, and the reason given for stopping the drawing of it into the city, is that the demand for fuel will be so great here during the coming winter that the bluffs will be almost despoiled, and the settlers, to whom the wood is a prime necessity, will have a scarcisy of it to add to the other hardships that go with the settlement of a district. The need of taking steps at once by our citizens to secure a supply of fuel is quite apparent. There is sufficient in the eastern part of the Province to supply the entire country for a number of years, and upon which we will have to draw this winter. By another season the coal supply will meet all requirements, and the question of fuel will then be finally decided. There are three or four parties in the city who have large interests in prospected mines, who informs us that by another season, coal will be laid down here at from $3 to $5 per ton.

THE voting on the County debenture by-law takes place to-morrow (Friday).

MAYOR DALY, wife and child, and sister arrived from the east on Monday afternoon last.

MESSRS. Kirchhoffer and Jamieson, of Plum Creek, are about erecting a large feed stable on Twelfth street.

JACK Frost has paid us several visits of late, and evenings and mornings are quite "cool and bracing," as 'twere.

MR. ELLIOTT, assistant Postmaster at Winnipeg, is in the city; looks well, and goes south on a shooting expedition. Long may he live.

WE would refer our readers to the advertisement calling a public meeting for the purpose of discussing the advisibility of establishing a city hospital.

WOOD Inspector Doran may be found at any time on the streets of the city, looking out for parties infringing on the wood regulations. He seized a load on Monday last.

CAPT. Granville has returned from the trip to Regina, and says that it is "booming." He is actively pushing the workmen on the Club House, and expects to open it very shortly.

REV. Mr. Argue, superintendent of M. E. Missions in the North-west was in the city during the past week, and speaks in very high terms of the progress it has made this season.

MESSRS. McDougall & McPherson have the contract for building the new schoolhouse. The price is $5,340. Messrs. McCoskrie & Co. are the architects. It is to be brick veneer, and when finished will be one of the finest school buildings in the Province.

THE PRIZE LIST.—We have to crave a little indulgence from our readers this week, owing to the non-appearance of the prize list report. It is now being revised, and, when this is done, we will give it in its corrected state. The reasonableness of this will at once be seen,

THE number of strangers that are coming into our city at the present time is beyond any comprehension. Those who here last spring will form some idea of it when we state that the hotels are crowded as much now as then.

NOBBY.—We have been shown a suit made by Cope the tailor, for the Police force, which fits better than those made in Winnipeg, and at lower prices. He is now making overcoats for the force, so satisfied were the authorities with the work turned out by him.

THE several hotels here have received licenses from the local Government for the sale of liquors, and they are now under full swing. An opportunity will thus be afforded of testing the question, "whether there is more drunkenness with than without a license law."

WE have received a copy of the first number of *The Commercial*, a new journalistic venture in Winnipeg. It is published by Messrs. Stern & Boyce, and reflects great credit on that firm. It is a publication that will of necessity find its way on the table of every business man in the Province.

WE have received No. 7 of the Cottage and Hearth, published at $1.50 per year, by the Cottage Hearth Company, 11 Broomfield street, Boston. It is, what its name would imply, a journal devoted to the house fireside. The number before us gives evidence of a high class literature, of excellent management, and shows that the editor understands his business, and the publishers theirs.

THOSE who have made the experiment, perhaps, are the only ones who are aware that the White Russian wheat, after being grown in this Province for two or three years, undergoes a complete change, Parties who have tested it inform us that when imported it is very thick-skinned, but after a year's growth here, shows a distinct difference, being much clearer and thinner-skinned. The second and third years it still improves, until it becomes a beautiful bright wheat, superior to the Scotch fife, the yield being greater.

AT the meeting of the School Board on Friday afternoon last it was decided to ask the City Council for the sum of $15,000 for school purposes during the coming year, the board having in view the purceasing of four additional lots adjoining those comprising the present site, making six in all. The rapid growth of the city's population makes it necessary for greatly increased school accommodation, hence the erection of the present addition. It is altogether probable that ward schools will have to be built during the coming season.

SIR Chas. Tupper, President Stephen and General Van Horne also two Amsterdam capitalists interested in the St. Paul and Manitoba road arrived here from the west by noon of Monday last. They were shown around the city by Ald. Fortier. In an interview with Sir Charles the claims of Brandon to a port of entry were laid before him, and he made a note of them, promising to bring the matter before his colleagues at Ottawa. The appeal was strongly sustained by President Stephen, who said that it was more desirable here than at the Portage.

CHURCH DEDICATION. — The First Presbyterian Church of this city was formally opened and dedicated on Sunday last. Services were conducted by Rev. Allan Bell, of Portage, who delivered two very impressive discourses, and addressed the young people at 3 o'clock. A social tea was given by the ladies of the congregation on Monday evening to a very large gathering, considering the unpropitious weather. The musical portion of the programme was entirely impromptu, and did credit to those taking part. Solos by Mrs. J.M. Robinson, Miss Lockhart and Mr. Vivian were heartily received and encored and accompaniments of Mr. Cleaver aided much to make the entertainment enjoyable. Very interesting addresses were delivered by Rev, Messrs. Gordon, Bell, Ferries, Williams and Bridgman, and Mr. A. C. Fraser. The duties of the chair were discharged as they only can be by Mr. G. B. Angus. The proceeds, amounting to about $115, go towards increasing the building fund of the church.

Deacon & Hooper, the agents for Carlings' ale here, expect a large arrival.

SOURIS CITY.

The work has been commenced for the bridge across the Souris river at this place. There has been a gang of men at work for the last few days working on the approaches, under the supervision of Mr. W. J. Scott, and the work is progressing rapidly.

Part of one of the gangs of workmen have arrived, and are busily engaged in erecting shanties for their use during the erection of the bridge. Already things begin to look of a booming nature.

The large new brick store of Messrs. Bannatyne & McPaggart is on a fair way to completion, most of the inside woodwok being finished. They expect to commence bricking up during this or in the early part of next week.

Their stock has arrived and comprises one of the finest selected stocks in Southern Manitoba

Our enterprising storekeeper, Mr. Thoma Harrison has started a butchering establishment in connection with his general store, and has filled a long-felt want by so doing. In fact, had it not been for him there would have been a meat famine out here, there being no salt meat to be obtained.

Mr. John Gray, builder and contractor, is doing a good business. Besides the school and store work is being rapidly pushed on the parsonage.

Both saw and grist mills are kept constantly busy, and the flour is in good demand and of first-class quality, the wheat in this section being second to none.

The last kiln of brick for the season has been burned, and has turned out of excellent quality The color is red, and the brick is quite hard — Altogether the brick-making enterprise has been a success, as brick in Manitoba surpasses the world. C.L.M.

Police Court.

ON Wednesday last after the show quite a disturbance was raised on Rosser Avenue by three brothers of the name of McQuaig. They assaulted and brutally kicked a man by the name of Shouldice. P. C. Campbell was soon on the battle field, and single-handed marched the three McQuaig's to the cooler. On Thursday they were arraigned before Ald's Evans, Lockhart and Smart, and fined as follows: Gilbert and Alex., $15.00 each, and costs, and Donald $10.00 and costs.

At same time Thos. Torson, drunk on streets; fined $1.00 and costs. Joseph Anderson charged Gilbert McQuaig wish assault; withdrawn on payment of 75 cents costs.

Saturday, before Ald. Winter, Joseph Anderson was fined $1.00 and costs for using abusive language to Mr. McDonald.

Wednesday, Oct. 18, before Mayor Daly, D. Y. McGilvrey, for larceny of gold ring from Arthur Kelly, of the Kelly House, was sentenced to six months in Winnipeg jail, at hard labor.

To the Editor of THE BRANDON SUN:

SIR,—We have our Fire, Health, Nuisance, and I know not how many other inspectors, but I have not yet heard of one whose duties are as important, if not more so, than any of the preceding, and that is a Building Inspector. That there has not already been a collapse in many of the buildings of this city is due probably more to the interference of Providence than to the management displayed in their erection. That buildings put up in the hurry that some of them are should show signs of weakness is not to be wondered at, and so long as the demand for dwellings is so great we may expect to run a still greater risk, as by degrees each person just acts as pleases himself, without having the least regard to life or property; that there are so few accidents is a wonder. The scaffolding upon which the men working at the Brandon Club was working was of the most temporary character, and the material used was totally unfitted for the same, and altho' the person falling from such a height was not killed, still a similar and not unlikely accident may happen again, and terminate fatally. Many of the building are of a much lighter character than they ought to be, but this has in the past been owing to the scarcity of material and the short time in which they are to be ready for occupation, for as a rule they are generally let or sold before completion, and many are required to hold large stocks of heavy goods, rendering the building unsafe. All the principal cities on this continent and elsewhere have a Building Surveyor, whose duty is to carefully watch the erection of every building, and report to the Council any infraction of the rules laid down for the protection of life and property.

The proprietors of the buildings should demand such an official for their own safety.—The Insurance Companies should join hands with the proprietors for their own protection, and certainly no honest contractor would, could or should object to having his work inspected, passed and reported on by such an official, always provided he is a thoroughly competent and practical man, and one who can calculate strains, weights, tension and bearing, and one who can not only point out the defects, but able to explain and remedy the same.

WATCHMAN.

To the Editor of THE BRANDON SUN:

SIR,—Is there not some considerable mismanagement connected with the working out of the town improvements. I noticed some time since near the Royal Hotel two culverts nearly close together; I asked the object, "Oh, it is a mistake of the contractor or the officer who ordered it was the reply." On the same avenue near sixth street the sidewalk was laid one day to be removed and altered the next. On the opposite side many loads of earth was laid to raise the walk, and in a day or two I noticed a number of men and teams engaged removing it again. Sir, I should like to know who pays the men for this child's play, does the contractor or the ratepayer have to feet the bill. In Ontario I believe I was the originator of the first "Ratepayers protection Society." It strikes me a similar society would find employment here too. And whilst I am grumbling let me mention what I have heard, but hope it is not true, viz: that an unlimited number of liquor licenses are to be granted, in fact to all applicants who can pay for them. I hope this is not true or our police force out to be increased to a dozen. I am an advocate for a limited number of respectable houses being licensed, which would be under the inspection of the police rather than have whiskey sold anywhere and everywhere by parties who pay nothing towards the taxes of the town. If my information is correct as to the granting of licenses to all, then I would propose a meeting of the townspeople to protest against such a course being pursued, which would be alike injurious to the working men and to the character of the city. It seems to me the sooner we get a Mowat administration in this province the better.

Yours, etc.,
T. SPENCE.

Brandon, Oct. 16, 1882.

"There's naught, no doubt, so much the spirit calms,
As rum and true religion." (Byron).

To the Editor of the "Brandon Sun":

Sir,—Through the medium of your valuable paper allow me to congratulate "A. F." on his able letter, which he has graphically headed—"A Middle." A happier title he could not have chosen. Astride of his hobby-house "Temperance" he has entered the lists—armed cap-a-pie, like some Paladin of old—he draws his trenchant blade "Prohibition" and tilts at all comers, ready to fight "a l'outrance" in the good cause—the Don Quixote of this city of the Plains—"sans peur et sans reproche!" He shows no mercy—the "crafty lawyer," the "politician," the "gentleman at leisure," and even our good "City Fathers," our "august Councilors," receive a blow. From "A. F.s" account the time cannot be far distant when all will be enrolled under his banner—the flag of Temperance—then the Nor'-west millenium will set in—but should the licensing system be still pursued, dire will be the consequences The city will be doomed—"Mene mene tekel upharsin" will appear upon our "city walls." As regards the petition against the licensing, which he claims has the majority, pray how many childrens' names were attached to swell the list. If "A. F." dislikes the licensing act, let him and other "bigots" follow Horace Greeley's advice and "Go west, young man—go west." Let us have freedom of action—those who like a glass in moderation have the option—and those who like water or "mild beverages" take them—but we strongly object to have other peoples' opinions thrust upon us by force, and their narrow views made a standing law—therefore, let us hope that no such "gag" as "A. F.s" clique would place upon us will come into action. Let the black sheep of the flock who choose to break moral and social laws, by making themselves "lower than the beasts" suffer. "A. F." considers that many who sell liquor do it against their conscience, but only "for the money there is in it." He gives our fellow-citizens very little credit for their principles"—perhaps he is one who advocates the water cause "because it pays him best 'for the money there is in it.'" It seemeth to me that "his reasons are as two grains of wheat hid in two bushels of chaff—you shall seek all day ere you find them, and when you have them, they are not worth the search." (Merchant of Venice). Prohibition will not stop the drunkard, so long as men can pander to his taste by smuggling spirits into the city. His motto is ever:

"Oh! for a drop in the bucket;
Oh! for a dram on the sly—
There's nothing like wetting your whistle,
So I'll drink like a fish till I die."

Yours, most sincerely,
JOHN BULL.

PLUM CREEK.

THE sale of lots at this place was most successful. Some of the lots brought as high as $300. The average figure was in the neighborhood of $150.

MR. Kirchhoffer, of this place, has threshed over sixty-three bushels of oats to the acre off breaking.

THE mill under the charge of Mr. McCullough is rapidly assuming shape. The dam is now being constructed.

A tea-meeting will be held on Monday evening next in connection with the opening services of the Methodist Church. A good time is expected. Addresses, readings and music will enliven the evening's enjoyment.

THE children of the Methodist Church are practising for a grand anniversary service, to be held shortly.

The salary of the Methodist Superintendent of Missions in the North-west has been placed at $2,000. There are fourteen more missionaries in the North-west and Manitoba this year than were employed last year.

The Grand Trunk in the North-West.

The St. Vincent *Herald* of the 13th inst., has the following:

We notice by the Canadian dispatches of the 5th inst,, that the negotiations are pending which are more than likely to result in admitting the Duluth & Winnipeg by way of St. Vincent to connect with the Emerson & North-Western. It has for several weeks been generally known that the Grand Trunk assures the Emersonians that they need not transfer their charter to the C. P. R., for want of funds; that they will furnish what cash is necessary for its completion and equipment. Having been thus assured, Emerson with commendable energy set right to work at the grading and are getting underway with the work, thus leaving the C. P. R. monopoly out in the cold concerning that deal. About the time that they were thus assured it leaked out that the Grand Trunk had bought up the Duluth & Winnipeg Railway, the disallowance act of the Canadian Parliament enabled the Syndicate monopoly to defy competition and manœuvre their railway matters to suit their own ends. But the last Canadian elections told Sir John A. Macdonald very plainly that this condition of affairs must be altered; that a competing line must tap the Manitoba markets. Accordingly we find that Sir Hugh Allen, the Syndicate, and the Grand Trunk are now putting their heads together to make amicable arrangements to let the latter into the Canadian North-west. The Grand Trunk is very powerful and the Syndicate has its match. We have no doubt as things exist but the Grand Trunk will be successful.

The trial of Constable John Albert, for shooting the boy Young in High Park in July last, took place yesterday before Mr. Justice Armour. The prisoner was convicted of murder, and sentenced to be hanged on November 10th. He received his sentence quite calmly.

WANTED.

A situation in a store or some place of trust by a young lady, bearing good testimonials. For further particulars and address enquire at this office. 38

WANTED, in an Architect's office, a youth who has a general knowledge of architecture, drawing, and to make himself generally useful. Apply with terms, references and previous experience to

CHISHOLM, JONES & CO.,
MANUFACTURERS OF THE
CABLE BARB WIRE,
which is made from the best English Bessimer Steel.
The only Manufactory of Barb Wire,
FENCE POSTS, STAPLES, ETC., IN THE NORTH WEST.
The Barb is made from a flat piece of Steel which has four points projecting in as many directions, and is very much stronger than the Wire Barb. See above cut.
The galvenizing is now done after the Barbs are set and the Wire twisted, consequently the Barbs are firm and cannot be moved out of place. It is also far more durable than Ontario Barb Wire as the surface or zinc is not cracked or broken by twisting.
EXAMINE IT FOR YOURSELF.

ALL WORK GUARANTEED to Give Satisfaction.
A trial respectfully solicited.
JAMES GREEN,
Rosser Ave., cor. 7th St.

[illegible]
[illegible] Gathering one by one;
Each brows encircled in a golden crown,
Their travel-stain'd robes are all laid down,
Gathering homeward from every land,
Gathering one by one.

CHORUS.

Home, home, sweet, sweet home,
Gathering, gathering, gathering home,
Gathering homeward, one by one;
Home, home, sweet, sweet home,
Gathering, gathering, gathering home,
Sweet, sweet home.

2 Lov'd ones have gone to that distant shore,
Gathering one by one;
Others are going for evermore,
Gathering one by one;
Our sisters so gentle, our brothers so brave,
The beautiful children over the wave,
Gathering homeward from every land,
Gathering one by one.

3 We, too, shall come to the river-side,
Gathering one by one;
Nearer its waters each eventide,
Gathering one by one;
Oh, Jesus, our fainting strength uphold,
The waves of that river are dark and cold;
Gathering homeward from every land,
Gathering one by one.

4 Jesus, Redeemer, be Thou our stay!
Gathering one by one;
Cross the dark river with us, we pray,
Gathering one by one;
Then boldly we'll come to Jordan's side,
And fearlessly breast its swelling tide,
Gathering homeward from every land,
Gathering one by one.

INTERTIEW WITH GENERAL VAN HORNE.

Brandon to be the Commercial Centre of the North-West.

(From the Winnipeg Sun, Sept. 30.)

A *Sun* reporter called on General Manager Van Horne, of the C. P. R., in regard to the statement which appeared in the Ottawa correspondence of the Toronto *Globe*, to the effect that the Dominion government had determined to reconsider that clause of the C. P. R. charter which permits the construction of no competing lines to the south for twenty years. In answer to the question Mr. Van Horne said:

I have seen the statement in the *Globe*, but place very little reliance on its truthfulness. The Syndicate has throughout acted upon the supposition that the Dominion Government would act up to the charter in every respect. I have no doubt but what it will. Should, however, it do otherwise, and charter lines crossing the international boundary it will be a bad thing for Winnipeg.

"How so?" queried the reporter.

"Because they will destroy the commercial supremacy of Winnipeg. Let me explain in what way they will do so. At the present moment the Chicago, Milwaukee & St. Paul railway company, and the Chicago & Northwestern railway company are racing for the international boundary. Both roads are running close together, so close that the one road can be seen from the other. At present both lines are completed to Stone Lake, a short distance south of the Northern Pacific railway. It is a neck and neck race with them which gets to the boundary first. Their objective point on the boundary is a place about one hundred miles or more west of Red River. Now should the Dominion government permit them to enter British territory both lines will strike the C. P. R. about Brandon, and right where they meet there will be a large city and centre of population. It must be remembered that those two roads, when completed, will be the most direct and shortest routes to Chicago and the United States railway system. The trade of the North West will naturally seek them, and the future city and centre of commercial activity will be where they meet, and Winnipeg will lose the lead it has gained. To Winnipeg, at any rate, allowing the charter of those lines, means the loss of its commercial supremacy."

A Very Stupid Fellow.

Demosthenes Blowhard was a candidate for justice of the peace down in Scrub Oak township, and as the political parties are nearly evenly divided in that precint, he was engaged in a vigorous canvass. While returning from the village post office he met Hans Van Hoofinger, and accosted him with:

"Hello, Hans! How are you, and how's the folks?"

"Vell, I vas vell und mine frau vas vell und leodle Hans and Yawcob und Katrina und der baby vas vell—ve vas all breddy vell, I dhank you."

"Ah! glad to hear it—glad to hear it," said Demosthenes, rubbing his hands delightedly. "Ahem! I suppose you know I shall be a candidate for the office of justice of the peace at the ensuing election."

"Iah dot so?"

"Yes, they would insist on my accepting the nomination; did all I could to get them to nominate somebody else, but it was of no use; seems as though I was the only man they wanted, and they are bound to have me."

"Und so you did not vants der office, und dey vill make you took it? Dot vas too bad?"

"Well, you know, a good citizen is always willing to sacrifice his own interests to some extent where he feels that the public good requires him to do so. And now, since I am in for it, I suppose I may depend on your support."

"Yen a feller does not vant somedings it vas not right to make him takes it. I does all that I can for you—I vote for de odder chap all der dimes, und I talks mit der boys und tells dem vat you saidt, und I dinks mebbe I gets you beat. Goot evening."

Demosthenes now alludes to Hans as a poor, ignorant old Dutchman, and says it is a thousand pities such people should ever be permitted to exercise the right of suffrage.

What made a Minister Laugh.

"Well, brethren, said a Maine minister to some of his fellow evangelists, "I never was guilty of laughing in the pulpit but once. Some years ago I had in my congregation an old man who universally went to sleep in church and snored very loudly throughout the entire service. One Sabbath morning glancing in his direction, I saw him as usual with his head back enjoying a nap, and right above him in the gallery a young man was rolling a large quid of tobacco around in his mouth. As I looked he took it out and poised it carefully over the open mouth below. I became so interested in the proceeding that I forgot to continue my sermon, but stood watching the young man. With a wicked smile he took careful aim and dropped it squarely into the old man's mouth. With a gulp lp-lp the sleeper started up and with face red as a beet rushed from the house. The people, no doubt, were horrified, but I could not have kept from laughing if a sword had hung over my head ready to fall. The old man did not come back for several Sabbaths, and when he did he changed his sea and remained wide awake."

An Ottawa special says: Engineer Murdook has begun locating the line of the South-Eastern from Winnipeg to the border. The mooted question is whether the South-Eastern Company have assurances from the Government of a relaxation of the disallowance policy of the Canadian Pacific that agrees with the views of the controlling minds. It is said the Manitobans are greatly excited over the Government's disallowance and threaten rebellion. They claim an immense crop, but on account of Canadian Pacific monopoly and stoppage of other railway building, it costs more to move the crops to market than their value. It seems the Government will have to do something to relieve this growing discontent.

At the meeting of the Hamilton General Conference of the Methodist Church of Canada, Hon. J. W. Sifton was called on to made a statement regarding the will of the late Rev. Edward Morrow. He said he was intimately acquainted with the deceased during the active work, and before he was located he was a man entirely devoted to the interests of the church, and liberal to a fault. He went to the North West and there was successful in making more than a living. In his will he left for Sabbath schools in the North West for the formation of libraries, $1,000; for the superannuated preachers' fund, $5,000; for the church extension fund, to be appropriated in the North-West, $10,000; and for the establishment of a college in Manitoba, 90 acres of land, which have realized $12,000. He might say that the will was only made a few days before his death, and it was found to be illegal. His heirs, his brothers, W. A. Morrow and Thomas Morrow, were consulted and they executed a deed affirming the provisions of the will. A resolution was read expressive of the high appreciation of the generosity displayed by the heirs-at-law in waiving their rights.

Collingwood, Oct. 13.—The coroner's jury in the Asia disaster last night handed in their verdict. They find that the captain was to blame for leaving Presqu' Isle with the reading of the barometer exceeding low; and that the board of steamboat inspectors is to blame for the loss of life in not notifying the collector of customs at Collingwood to detain the Asia until a new certificate was granted or refused. The old Welland canal style of propellors is condemned for Upper Lake navigation and also the practice of granting certificates to steamboats to carry more passengers than they have life-saving apparatus for. Steamboats should be compelled to carry life rafts and boats sufficient in number to save all the passengers and crew they are allowed to carry; and the jury find that all captains and mates should be required to under go a strict examination before assuming such positions.

NOT A HALF-WAY CURE, but positive, permanent relief, soon experienced, follows the use of Thomas' Eclectric Oil for coughs, colds, sore throat and chest, rheumatism, neuralgia, piles, sores and diseases of horses and cattle. Indorsed by professional men of eminence; inexpensive and popular: it in every case proves itself worthy of the general confidence reposed in it. The ingredients which compose it are the purest and most effective medicinal; no alcohol impairs its strength by causing evaporation, and it can be used as an outward application or an internal medicine. No lotion or ongucnt can compare with it either in efficacy or purity. As it is sometimes imitated by unprincipled dealers, purchasers should see that each wrapper bears the fac-simile signature of S. N. Thomas, and the firm name Northrop & Lyman blown in the bottle. Sold by all druggists. Prepared by NORTHROP & LYMAN, Toronto, Ont.

WHAT THE CONSUMPTIVE NEEDS is a medicine which not only relieves irritation of the lungs, but makes up those losses of strength always entailed by lung disease. Recovery can never be hoped for so long as the vital current remains watery and impoverished, the nervous system weak and unquiet. It is the union of invigorating elements with a pulmonic of acknowledged potency that gives Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda such a decided pre-eminence over the generality of preparations designed to overcome lung, throat and bronchial affections. The hypophosphites furnish the system with the most important constituents of blood, muscle and nervous tissue, and the highly prepared oil derived from the cod's liver acts as a subjugator of throat and lung irritation. Sold by all druggists. Prepared only by NORTHROP & LYMAN, Toronto.

BY-LAW NO. 41.

A By-Law to raise thirty thousand dollars by Debentures for permanent improvements in the County of Brandon.

Whereas it is expedient and desirable to raise by loan on the credit of the municipality of the County of Brandon the sum of thirty thousand dollars, payable on the second day of October, in the year of our Lord one thousand nine hundred, with interest at the rate of six per centum per annum, to be applied to, and which has been estimated to be necessary, to making permanent improvements within the County of Brandon, hereinafter mentioned, that is to say:

1 For the construction of Roads and Bridges twenty-five thousand dollars.

2 For the construction of County Buildings, five thousand dollars.

And whereas, the sum of three thousand four hundred dollars will be required to be raised annually as a special rate for paying the interest and for creating a sinking fund for paying the said loan at the days and times when the same becomes payable by this By-law;

And whereas, the amount of the whole ratable property of the County of Brandon, according to the last revised assessment rolls, is two million two hundred and ninety-eight thousand three hundred and five dollars ($2,298,305); and whereas, to raise the said yearly sum of three thousand four hundred dollars the annual special rate upon the said ratable property will require to be one and one-third mills in the dollar: therefore, the Warden and Council of the County of Brandon, in council assembled enact as follows:

1. That the sum of thirty thousand dollars be raised by way of loan upon the credit of this municipality.

2. That Debentures in sums of not less than one hundred dollars each be issued by this Council, not exceeding in the whole the sum of thirty thousand dollars.

3. That the Debentures to be issued therefor be made payable on the second day of October, in the year of our Lord one thousand nine hundred, and bear interest at six per centum per annum, payable half yearly on the second days of April and October each year.

4. That the Debentures may, both as to the principal and interest, be made payable at any place in Great Britain, Ontario, Quebec, or Manitoba, and may be expressed either in sterling money or in the currency of the Dominion of Canada.

5. That the sum of thirty thousand dollars being the amount required for and necessary to repay the expense of the permanent improvements herein mentioned be laid out as follows: In the construction of Roads and Bridges, twenty-five thousand dollars; county Buildings, five thousand dollars.

6. That the annual special rate of one and one-third mill in the dollar upon the assessed value of all the ratable property in the County, according to the last revised assessment rolls of this municipality over and above all other rates and taxes, shall be raised, levied and collected annually from the year one thousand eight hundred and eighty-two to the year one thousand nine hundred inclusive, for the purpose of paying the said loan of thirty thousand dollars and interest as aforesaid.

7. That Friday, the 27th day of October next, be the day fixed by this By-law for taking the votes of the electors of this municipality thereon, from 10 o'clock a. m. to 4 o'clock p. m.

8. That the following shall be the polling places in the county at which the votes of the electors shall be taken on this by-law: Ward No. 1, section 32, township 7, range 17, west; John Wear, returning officer. Ward No. 2, section 18, township 10, range 18, Dr. W. J. Graham, returning officer. Ward No. 3, section 13, township 11, range 18, F. Clegg, returning officer.

9. That this by-law shall come into operation and take effect from the day of its final passing, according to the date hereof.

Done and passed in Council of this County of Brandon, this second day of October, in the year of our Lord one thousand eight hundred and eighty-two.

(Signed), GEO. RODDICK, Warden.
JNO. WETHERILL, Clerk.

I certify the above is a true and correct copy of By-law No. 41, passed October 2nd, A. D., 1882.

ONE WHOLE BLOCK!

The only unbroken one on the Town Site.

WOODWORTH ESTATE LOTS.

FULL AND SUFFICIENT DEEDS

Purchase your Residence and Business Sites in

THE CHOICEST LOCATIONS

AND SECURE YOUR DEEDS AT ONCE.

It is scarcely necessary to enter into a lengthy description of the advantages to be derived by settling in Brandon, as its growth during the past summer has shown that it is decidedly the CITY OF THE WEST. Yet it behooves all who come here and purpose remaining to provide for themselves as soon as possible comfortable houses and good points of business. These can be had from Mr. Woodworth and at first prices. When you can secure such property as he offers you, and at the prices, it is folly to go elsewhere and purchase through outside agents, getting inferior locations and paying much higher figures.

The completion of the First Street Bridge brings right past the door of this property all the traffic to the North and West of the Assiniboine, and therefore adds greatly to its value. Of this purchasers have the benefit.

BRANDON PLANING MILLS!

PLANING, MATCHING and SAWING.
